

8. What problems or concerns have you had throughout the process of completing your project(s)?

#	Response
1	I have had trouble finding information on the internet.
2	the specific dates
3	If I would be able to find enough published information on the subject I chose.
4	none really
5	Not enough sources on my topic-Childhood obesity
6	None
7	sometimes I can't find articles at database and besides that when I need a specific book I couldn't find them on the shelves.
8	Credibility on Sources
9	The biggest problem I face with articles is if they are Full text or not, and when searching the option of full text the amount of sources can become very slim.
10	Being able to find sources that discuss a similar topic to those covered in my paper.
11	Narrowing my focus in order to write my paper in ten pages.
12	The initial steps. Deciding on a topic and coming up with keywords to do searches.
13	None in particular.
14	None
15	none
16	Findng some really good articles on COD databases that are not full-text.
17	Only problem I had that previously I didn't have my library card, so I had to access from library, but since I am having a library card now, it is possible for me from home too.
18	none
19	When not enough subject resources are available.
20	I use the internet a lot, and there are a lot of unreliable sources out there.
